SKILLS

- Java (OOP, GUI applications, debugging)
- Frontend Web Development (HTML5, CSS3, JavaScript)
- Database Management (MySQL, SQL queries)
- Version Control (Git, GitHub repositories)
- Problem-Solving (Algorithms, data structures)

LANGUAGES

1. English (Fluent)
2. Hindi

EXTRACURRICULARS

- HACKATHON PARTICIPANT
- PUBLIC SPEAKING PRACTICE:
- TECHNICAL BLOG WRITER:

PROFILE

Motivated BCA student with hands-on experience in web development (HTML, CSS, JavaScript) and Java programming, including projects like Smart Restaurant AI agent and billing machine GUI. Skilled in MySQL databases and GitHub for version control. Seeking freelance or internship opportunities to build dynamic applications and grow as a full-stack developer.

AREAS OF EXPERTISE

Web Development & Frontend Design

- Proficient in HTML5, CSS3, and JavaScript for building responsive, dynamic websites. Created personal portfolio sites and client-ready demos hosted on GitHub, emphasizing user-friendly UI/UX. Applied skills in college assignments to deliver cross-browser compatible pages.

Database Management & Tools

- Skilled in MySQL for database design, SQL queries, and normalization; managed schemas for project backends. Comfortable with GitHub for version control and freelancing platforms like Truelancer. Eager to apply these in real-world applications like full-stack development or AI chatbots.

Projects Section   2024 - 2025

- Water Conservation System
  [languages used - HTML/CSS And JS]
- Restaurant AI Chat Bot
  [N8N, HTML/CSS. Google Sheets]

EDUCATION

Bachelor of Computer Applications (BCA)   2024 - 2027

- Relevant Coursework: DBMS, Java Programming, Web Development, Data Structures.
